

PROTEO ULTRA

A supplement to support a healthy acute inflammation response.*

Did You Know

Inflammation is an essential reaction to the body's natural response to injury. For short periods of time, this is beneficial because it floods the injury site with nutrients allowing the injury to heal faster. Chronic, systemic and prolonged inflammation, however, is not only damaging to the body but can increase pain and prolong the time to heal. The first step of effective injury care should seek to control inflammation.

HealthSource Proteo Ultra can help to support the following:

- Joint comfort*
- Mobility, range of motion and flexibility*
- Acute inflammation response*

The HealthSource Difference

HealthSource Proteo Ultra can offer a solution to support an acute response protocol for inflammation in the joints.* Designed to help support the body with aches and pains associated with physical activity and over-exertion, Proteo Ultra is the next level of joint and muscle comfort support.*

KEY INGREDIENTS

- **Serrapeptase** – also known as serratiopeptidase, is a proteolytic enzyme that breaks down proteins into smaller components called amino acids.
- **Bromelain** – enzyme derived from the pineapple core which supports the key signaling enzymes relative to inflammation response.
- **Papain** - is extracted from the raw fruit of the papaya plant. It has shown to help break proteins down into smaller fragments and support the reduction of pain, inflammation, and swelling.

BENEFITS

- Synergistic components promote enhanced efficacy.*
- Supports joint flexibility and comfort.*
- Supports normal levels of prostaglandin, which influences inflammation and immune response.*
- Supports a healthy inflammation response in the body.*

Supplement Facts

Serving Size: 2 Capsules

AMOUNT PER SERVING

Serrapeptase Complex (120,000 U) 1 g, Papain Complex (250,000 USP) 125 mg, Bromelain Complex (16.5 GDU) 6.945 mg

Inactive Ingredients: Maltodextrin, Gelatin (capsule), Rice Flour, Magnesium Stearate

Warning: If pregnant, nursing, have a peptic ulcer, are taking blood thinning medications or have low blood pressure, do not take this product without first consulting your healthcare practitioner. Excessive use of this product may cause diarrhea and other gastrointestinal complaints, including nausea and abdominal pain.

Suggested Use:

Take two capsules twice daily. For best results take 30 minutes before a meal or 2 hours after a meal, or as directed by a healthcare professional.

The proteolytic enzymes in HS Proteo Ultra have shown to reduce swelling, inflammation, and Delayed Onset Muscle Soreness (DOMS) after a workout. Because of the many pain relief benefits, HS Proteo Ultra can serve as a healthy alternative to NSAIDs. It can be a great staple in the home medicine cabinet.
